

## Murphy Case

Please look at the picture of the sign painted on the Barn/garage has the title Earth and Sky Farm. This is her E-mail address earth and sky [community@gmail.com](mailto:earthandskycommunity@gmail.com). As an abutter I have seen this all last year

as she throws these outings on week ends. Come pair to her go fund me face book page you can see what is going on here and why she wants so many parking spots. Notice the tables can you imagine how many people this would seat and the traffic it would create. Sign is illegal and don't you need a permit or some thing for these outings. Must be pay to play.

Remember the road is only 14 feet across and a single lane.

## GIVE TODAY--Farming for the Future

Team fundraiser

Michaelann Murphy and 3 others are organizing this fundraiser.

Donation protected

Each dollar will be a seed to make this vision a reality.

We are close to our goal- Please help us create this farm and education for future generations. Thanks to everyone for the support, encouragement and financial contributions, both online and off.

### The Vision of Earth and Sky Farm Community

~offer nature and farm-based learning for children and adults, providing educational guidance balanced with practical, meaningful agricultural work, traditional farm handwork, and craft activities;

~connect food and farming with health and sustainability by using biodynamic practices to inform and support our work on the land; as we grow seasonal vegetables, herbs, and fruit, care for farm animals and tend the forest

provide a sacred space for people of all ages to gather together with the intention of creating a healthy social life by sowing the seeds of love, harmony, and beauty.

This farm in Wilton, NH (90 minutes northwest of Boston) offers all the elements needed for sustainable, biodynamic farming, including a pond, forest trails, a hayfield, and gardens bordering over 800 acres of protected state forest.

The existing outbuilding is perfect for circles, dances, gatherings, sharing meals, crafting, preserving farm produce, housing our beloved horse Maple, and other farm animals.

With proximity to High Mowing Waldorf School, Temple Wilton Community Farm, Wild Rose Homeschool Enrichment, and a range of other anthroposophical, biodynamic, and nature-inspired initiatives, we look forward to sharing with and learning from a widening circle.

Thank you for the generous support and donations. Invest today in a sustainable future for farmland preservation. Contact Michaelann or team members for details of the formal conservation efforts
